

## **Individual Reflection 2**

Julia Böckert

### **What do I want to learn or understand better?**

I want to understand the client's needs so that I can be prepared and helpful when starting to build the application.

### **How can I help someone else, or the entire team, to learn something new?**

I can research similar applications to what we will create and from that information suggest possible design choices for the start of the project.

### **What is my contribution towards the team's use of Scrum?**

I have gotten a better understanding of what DoD, user stories and epics mean. I feel confident that I can contribute very well to the process in the future.

### **What is my contribution towards the team's deliveries?**
