Individual Reflection 1

Julia Böckert

What do I want to learn or understand better?

I want to understand Definition of Done better, but I am hoping this will come to me as we're doing an independant sprint in the upcoming weeks. I think I have a pretty okay idea of what Scrum and sprints are, but it's easy to distinguish DoD from the POs requirements.

How can I help someone else, or the entire team, to learn something new?

I can do my research and have a good understanding of what the tasks ahead are. I can take responsibility to research something the group will benefit from and then share this with the rest of the team, or share what I already know from Git and the IDE we will use.

What is my contribution towards the team's use of Scrum?

I have contributed and engaged in discussions during our sprints in Minenet.

What is my contribution towards the team's deliveries?
